EDUCATION

Guru Gobind Singh Indraprastha University, Noida   2020 - 2023
Bachelor of Computer Applications.

PROJECTS

DEVCONNECT | *Node.js, JavaScript, Typescript, MongoDb, Express.js*   *Sept 2025 – Present*

- Founded DEVCONNECT to solve the critical problem of disconnected student developers, designing a centralized platform to foster collaboration and team formation for technical projects.
- Architecting a full-stack, real-time platform from scratch with a micro services-oriented backend, engineering an ecosystem of tools including team-finding algorithms and integrated project management boards.
- This mission-driven project showcases my passion for building developer-centric tools and my expertise in end-to-end system design and product development.

Help Node | *Html, Css, Node.js, Express.js, MongoDb*   *Aug 2025 – Aug 2025*

- Designed and developed a full-stack ticket raising management system to solve a real-world tracking problem, featuring user hierarchy, task updating.
- Implemented a RESTful API using Node.js/Express.js and a responsive frontend, demonstrating proficiency in MEN stack application development and deployment.

Tokenization Script – ADV | *BashScripting*

- Developed a **Bash tokenization script** to automatically separate success and failure Aadhaar tokens from combined files.
- Generated individual **success/failure files** with accurate counts and updated the combined file.
- Automated placement of success files to the target server, improving workflow efficiency.
- Implemented robust **error handling** for reliable token processing and file management.

POSITIONS OF RESPONSIBILITY

Software Engineer – Application Support | Integra Micro Systems Pvt Ltd   *Aug 2023 - Present*

- Currently working as a Software Engineer – Application Support at Integra Micro Systems Pvt. Ltd., responsible for managing patching, deployments, minor bug fixes, audit assistance, and testing of web, Android applications and APIs. Additionally, perform DC/DR activities for the AEPS project, supporting Punjab & Sind Bank on behalf of Integra.

License & Certifications

AWS Certified Cloud Practitioner

Successfully earned the **AWS Certified Cloud Practitioner** certification, demonstrating a solid understanding of cloud computing concepts, core AWS services, security best practices, and cost management. Validates the ability to confidently navigate and utilize AWS cloud environments for practical business and technical solutions.

Linux Certification

Successfully earned a **Linux Certification**, demonstrating proficiency in Linux operating systems, command-line tools, system administration, and fundamental networking concepts. Validates the ability to efficiently manage and troubleshoot Linux-based environments in professional IT and development settings.

.

TECHNICAL SKILLS

Languages: JavaScript, Typescript, Sql, python, bashScripting

Backend: Node.js, Express.js, RestFul APIs
Databases: MongoDb, PostgreSQL, MySql
Programming & CS Fundamentals: CORS, Networking, SystemDesign, MicroServices
DevOps & Tools: Git, GitHub, Docker, Postman, WebRTC, Socket.IO, Redis, Vercel, Aws
Operating Systems: Window, Linux
